TOMKIN®
THE MARK OF HOSPITALITY

WELCOME TO THE TOMKIN FAMILY TABLE

As a team, we are motivated to be at the service of the hospitality. We have enjoyed the recent market challenges together. The resilience we have seen in Australia and within our team have led us where we are now, when we look to a brighter future for our sector and for our company and we are actively contributing to build this future.

I am extremely proud to work for a company which has been one of the Australian pioneers in the hospitality sector. Our objective is to continue to grow the company in Australia and at the same time to take Tomkin Australian brands, product and values at the world level.

Alex Dicu
CEO

OUR STORY

Since 1975, Tomkin has been bringing tastemakers and discerning hospitality professionals a selection of the finest front-of-house and back-of-house hospitality ware.

We believe food and beverage service is an art, and we strive to provide a canvas for chefs and hospitality specialists to bring their vision to life. Which is why all Tomkin products are benchmarked for value, craft and design that can endure the rigours of continual daily use in a commercial food service environment, backed up by comprehensive product guarantees.

Our longstanding reputation is built on not just the calibre of the brands we create and represent, but also on the solid partnerships and enduring relationships we have developed with select suppliers, factories and warehouses to make sure our customers always get the reliability in supply and service delivery we are famous for. For the finest commercial hospitality ware that excels in value, aesthetic appeal and longevity, **Tomkin is the partner you can always rely on**.

SUSTAINABILITY KEY PILLARS

We are dedicated to becoming a champion for change in our industry, and we want to be accountable to our commitments while empowering you to make better product choices.

Using recyclable and biodegradable materials that have a lower environmental impact is one of our main strategies to reduce our overall footprint on the planet.

We're excited to share our journey to a more sustainable company with you.

Biodegradable vegetable inks

02 Environment
Along with using more sustainable materials in our products, we have developed several strategies across our business to reduce our overall environmental footprint.

We have switched to more environmentally responsible products and processes around our office and warehouse.

Look out for more on our goals in this space as we continue to develop our environmental strategy.

We are on a journey to reduce our carbon footprint in several ways across our business:
- We have implemented a cloud strategy for our staff. We have reduced our power consumption and carbon footprint as we don't require physical servers.
- The paper we use within our office printers and for our printed catalogue are FSC certified and are made from 70% recyclable paper.
- We have been undertaking system improvements over the past few years. Our new in house system is cloud base which is TBA% more energy efficient than our previous platform.
- We are now moving towards 100% plastic-free retail packaging to be more conscientious about wastage from our business to our customers.

This catalogue has been printed onto a paper stock that is manufactured from timber sourced from sustainable resources.

Both our printer and paper manufacturer is accredited to the highest international environmental standards.

The Australian printing manufacturer we have used is powered by solar panels and uses vegetable based inks that are biodegradable. We have made all conscious efforts to reduce our carbon footprint to produce this catalogue and to keep our manufacturing in Australia.

SUSTAINABILITY KEY PILLARS

03 Ethical Supply

Ensuring our brand operates ethically in regards to our supply chain is integral to our conscious strategy.

We have taken practical steps to adhere to current global standards and continue to improve this aspect of our business.

Our goal is to drive continuous improvement within our supply chain and help improve the workers' environments that make our products.

Discrimination in any form, including based on gender, is not tolerated.

Tomkin is committed to addressing any gender inequality in our supply chain. Tomkin prohibits the use of child, forced or bonded labour under Young Workers and Child Labour Policy and Forced Labour Policy.

04 Community

We are passionate about creating positive change through our charity partnerships and community initiatives. Tomkin and our employees are proud to support a range of diverse organisations.

05 Diversity and Inclusion

We are committed to evolving our Diversity, Equity and Inclusion (DEI) practices and cultivating an environment of inclusiveness and belonging which values diversity and enables individuals to thrive.

We recognise that each individual possesses a rich, diverse set of perspectives, cultural experiences, and values. We acknowledge the importance of harnessing this diversity to promote a cohesive and synergistic workforce.

WÜSTHOF

FOR **OVER 200 YEARS**, WÜSTHOF HAVE MANUFACTURED THEIR KNIVES IN THE **CITY OF BLADES; SOLINGEN, GERMANY**. A **WORLD-CLASS MANUFACTURING PROCESS** ENSURES THEIR BLADES ARE **SHARP, PRECISE, AND RELIABLE**, WITH A DESIGN FOR EVERYONE.

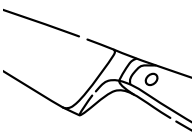

FORGED FROM ONE PIECE

The blades are forged from one piece of high alloy chrome molybdenum vanadium steel, and are exceptionally sharp, robust and long-lasting thanks to the laser-supported sharpening process PEtec

FULL TANG DESIGN

As an extension of the blade, the tang gives the knife reliable stability. In addition, as a counterweight it ensures the blade is balanced.

HAND GUARD

The knife handle sits in the hand comfortably and is curved slightly downwards at the heel to avoid slipping. The robust handle shells are secured with stainless steel rivets and manufactured seamlessly.

THE CLASSIC IKON SERIES COMBINES **PERFECT ERGONOMICS**, **EXCELLENT BALANCE** AND **ULTIMATELY SHARP BLADES** WITH A **TIMELESS DESIGN**. BEFORE THEY ARE SHARPENED, EACH BLADE IS MEASURED USING LASERS.

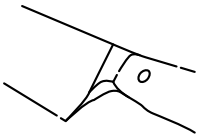

FORGED FROM ONE PIECE

The blades are forged from one piece of high alloy chrome molybdenum vanadium steel, and are exceptionally sharp, robust and long-lasting thanks to the laser-supported sharpening process PEtec

FULL TANG DESIGN

Balance and ergonomics – the special geometry with double bolster for balanced handling. The knife sits comfortably in the hand and guarantees effortless cutting.

HAND GUARD

The knife handle sits in the hand comfortably and is curved slightly downwards at the heel to avoid slipping. The robust handle shells are secured with stainless steel rivets and manufactured seamlessly.

THE SPECIAL SYNTHETIC BLACK HANDLES ARE SEAMLESSLY ASSEMBLED, **DISHWASHER SAFE** AND THEREFORE **EXCEPTIONALLY HYGIENIC**. SILVERPOINT KNIVES ARE **OPTIMALLY BALANCED**, **COMFORTABLE TO HOLD** AND SO GUARANTEE EFFORTLESS WORK.

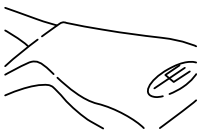

PRECISION EDGE TECHNOLOGY

Each individual knife is measured by a laser before grinding. The optimum sharpening angle is calculated immediately and a precision robot sharpens the knife on the whetstone, before the knife is given its ultimate sharpness using a special buff wheel.

HOLLOW EDGE

Small air pockets are produced by the hollow edge on the depressions of the blade. The positive effect of this is that thin or soft food items are more easily removed from the blade during use.

ECO-FRIENDLY MATERIALS

Ergonomically shaped with perfect texture: The handle is made from sustainable natural fibre material, feels as pleasingly warm as wood and is as robust and hygienic as synthetic material.

Füri®

SINCE 1996, FURI HAS BEEN **DEVELOPED BY LEADING AUSTRALIAN ENGINEERS & INTERNATIONAL CHEFS**. THE FUNDAMENTAL VISION AND VALUES ARE **DESIGN**, **INNOVATION**, AND **PERFORMANCE**, MAKING FURI THE SELECTED BRAND FOR EXECUTIVE CHEFS AND HOME COOKS WORLDWIDE.

REVERSE WEDGE HANDLE

Tough on food, kind on hands. The innovative reverse wedge handle locks into your hand for a safer grip reducing hand fatigue. Engineered with hygiene and safety, the seamless construction eliminates the trapping of food and dirt.

DESIGNED IN AUSTRALIA

Designed in Australia, Füri knives were made to be different. Füri thought of hands first before designing knives. Turning a handle upside down reduces hand fatigue and increase safety. After all, if a knife feels right in your hand, it's right for your hand. Sharper thinking.

25 YEAR GUARANTEE

Chosen by leading chefs worldwide, Furi's revolutionary design, excellence and precision are backed by a 25-year guarantee. Perfectly polished with a sleek, seamless design, Furi dedication to quality is made to last.

TRAMONTINA

SPECIFICALLY **DESIGNED FOR INTENSE USE**, TRAMONTINA CENTURY COLLECTION OF KNIVES IS CRAFTED USING THE **HIGHEST QUALITY STAINLESS STEEL**. FEATURING AN **ERGONOMIC, STEEL INJECTED HANDLE**, THIS SERIES IS **NSF CERTIFIED** FOR LONG-TERM SAFETY AND HYGIENIC USE.

NSF® CERTIFIED

Setting the food safety and sanitation standard, NSF Certified products ensure each product has been tested to the highest specification. The National Sanitation Foundation is recognised worldwide as dedicated to protecting and improving global health.

FORGED HANDLE

Crafted using a single piece of steel, Forged handles offer stability and durability. Using thermal treatment, each piece is heated to extreme temperatures and then cooled to subzero temperatures to ensure quality and long-lasting use.

V-SHARPENED EDGE

V-Shaped edge on a knife provides an optimal cutting edge. Able to stay sharper, V-Shape Edge is easier to sharpen, durable, and the most preferred design.

FORGED FROM ONE PIECE

The blades are forged from one piece of high alloy chrome molybdenum vanadium steel, and are exceptionally sharp, robust and long-lasting thanks to the laser-supported sharpening process PEtec

FULL TANG DESIGN

As an extension of the blade, the tang gives the knife reliable stability. In addition, as a counterweight it ensures the blade is balanced.

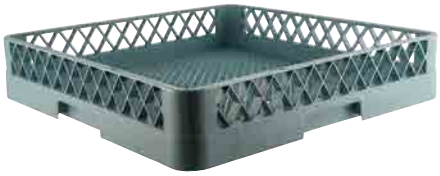

HAND GUARD

The knife handle sits in the hand comfortably and is curved slightly downwards at the heel to avoid slipping. The robust handle shells are secured with stainless steel rivets and manufactured seamlessly.

SCHÖNWALD Germany

RELAXED AND **UNDERSTATED**, SCHONWALD SHIRO FEATURES STURDY EDGES, DEEP COUPES AND **DISTINCTIVE CONTOURS**. IDEAL FOR MODERN DINING SETTINGS, ITS **CLASSIC COLOUR** ENHANCES FOOD PRESENTATIONS.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

SCRATCH RESISTANT

Guaranteed to look new time and again, our scratch resistance glaze withstands abrasion caused by cutlery, stacking, and industrial dishwasher use. Its long lasting glaze allows you to showcase all food styles for many years of service.

CHIP WARRANTY

Ideally suited to the hospitality industry, our chip resistant edge is durable without sacrificing the lightweight design or style. Hard wearing and durable, our chip resistant guarantee cover chipping only, not breakages for the piece's lifetime.

THE **STRAIGHTFORWARD, MONOCHROMATIC DESIGN** WITH INGENIOUS **RAISED EDGES** ALLOWS YOU TO CREATE COUNTLESS PLATING POSSIBILITIES.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

DUAL GLAZE

Adding depth of colour and texture to each piece, our dual glaze brings authenticity and variance. The initial glaze seals the porcelain while the second glaze adds a layer of sheen or matte. The dual glaze delivers long-lasting luster or satin finish.

DESIGNED TO MIX AND MATCH

Stylish and functional, this collection had been skillfully created to coordinate beautifully with other pieces in the ranges. Add a layered effect by mixing and matching with other ranges to create a unique combination.

tk SOHO tablekraft

DISTINCTIVE PATTERNS PAIRED WITH **NATURAL TEXTURES** MAKES TABLEKEFT SOHO RANGE ADAPT TO ALL MANNER OF FOOD STYLES. THE GLAZE FINISH OF EACH PIECE, BRINGS **VARIANCE** AND **INDIVIDUALITY**.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

HAND GLAZE

Unique and handmade. Each piece is hand-dipped into the glaze from top to bottom, leaving a single band or natural porcelain around the rim and base of each piece. Variations from piece to piece evoking individual character and charm.

DUAL GLAZE

Adding depth of colour and texture to each piece, our dual glaze brings authenticity and variance. The initial glaze seals the porcelain while the second glaze adds a layer of sheen or matte. The dual glaze delivers long-lasting luster or satin finish.

MODERN WITH SOFT DELICATE CURVES, BORMIOLI ROCCO DINNERWARE TIMELESS DESIGN MAKES IT **PERFECT FOR MIXING WITH OTHER RANGES**. VERSATILE AND RESISTANT, THIS CLASSIC RANGE IS **SUITABLE FOR ANY DINING EXPERIENCE**.

LEAD FREE CRYSTAL GLASS

Star Glass does not alter the colour, smell or taste of wine and spirits.
Manufacturing features:
- Purity of raw materials
- Clarity and Brightness of the finished products
- Premium recyclable materials

LASER CUTTING

Consistency is key when producing uniform and linear rims and is achieved by using a laser beam (rim cutting). This technology improves the quality of the products and is specifically designed to meet the needs of professionals.

REDUCED THICKNESS

Glassware with thin rims present a fine delivery to the palette, allowing all aromas and flavors to be appreciated.

ROYAL PORCELAIN MAXADURA DELIVERS **TRADITIONAL SHAPES** AND **CLASSIC STYLE**. THIS **HIGHLY DURABLE** RANGE OFFERS A SHINY AND REFINED TEXTURE THAT PROVIDES **EXCELLENT SCRATCH RESISTANCY**.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

DUST PRESS COLLECTION

Extraordinarily hard and dense, this Dust Press collection is created using a dry powder compacted to produce a sturdy and solid substance. Using age-old processes, Dust-Press porcelain is much harder than ordinary porcelain.

CLASSIC COLOUR

Our Classic Colour dinnerware is the perfect combination of elegance and grace, enriched with a subtle silky off-white hue. Its slight off-white tone sits comfortably against other Classic Colour collections.

RCR CRISTALLERIA ITALIANA WAS FOUNDED IN 1967 IN THE HEART OF TUSCANY, THANKS TO AN IDEA HAD BY A GROUP OF CRAFTSMEN WHO, WITH PASSION AND TALENT, BROUGHT THE MILLENARY TRADITION OF GLASSMAKING TO A HIGHER LEVEL.

LEAD FREE CRYSTAL

Higher values indicate greater ability of the glass to deflect light, producing effects typical of brilliants and cut glass.

ECO CRYSTAL GLASS

0% Atmospheric Discharge

- RCR employs only electric furnaces
- The process of melting and fining is completely electric and without smoke emission

Only renewable energy

100% Recyclable

- The absolute pure raw materials used, allow the Luxion® Ultraclear Eco-Crystal Glass to be 100% recyclable
- 99.9% the percentage of internal cullet recovery
- No polluting bleaching agents used in the process

BORN IN FIRE, SHAPED BY TIME. STOLZLE GLASSWARE IS **CRAFTED FROM THE FINEST QUARTZ SAND, SODA, POTASH AND FELDSPAR**. THIS HIGH-QUALITY CRYSTAL GLASS IS **RESISTANT** AND **DURABLE** WHILE ALSO AN AESTHETIC DELIGHT.

ECOLOGICAL RESPONSIBILITY

Stolzle have been an active participant in the EU Emission Trading Scheme since 2005, which means that they are encouraged to steadily reduce our energy consumption and greenhouse gases through the use of the latest technology. All glasses that do not correspond 100% to quality requirements stay within the production cycle, will be re-melted and used again. All packaging has a FSC certification; filling material and pallets are also made of recycable material. Rainwater collected in a cistern replaces the use of water in production.

LEAD FREE CRYSTAL GLASS

Created from quartz sand and combined with soda, potash and feldspar, it results in elegance, performance and clarity. Safer and more durable than leaded crystal, our lead-free crystal delivers exceptional shine and transparency for enhanced presentation.

BORMIOLI ROCCO DRINKWARE COLLECTIONS ARE MADE TO **ENHANCE PRESENTATIONS**. THEIR PRODUCT PORTFOLIO IS A BALANCE BETWEEN **MEETING THE REQUIREMENTS OF THE MOST DEMANDING CUSTOMERS** AND **INNOVATION & STYLE**.

LEAD FREE CRYSTAL GLASS

Star Glass does not alter the colour, smell or taste of wine and spirits.
Manufacturing features:
- Purity of raw materials
- Clarity and Brightness of the finished products
- Premium recyclable materials

LASER CUTTING

Consistency is key when producing uniform and linear rims and is achieved by using a laser beam (rim cutting). This technology improves the quality of the products and is specifically designed to meet the needs of professionals.

REDUCED THICKNESS

Glassware with thin rims present a fine delivery to the palette, allowing all aromas and flavors to be appreciated.

SINCE 1945 DURALEX HAS BEEN **MANUFACTURING TOUGHENED GLASS** AND TABLETOP PRODUCTS IN THE HEART OF **FRANCE**. **IMPACT**, **CHIP RESISTANT** AND **SHOCK PROOF**, DURALEX GLASS IS CRAFTED FROM SAND, SODA ASH & LIMESTONE MAKING IT **100% RECYCLABLE**.

ECO FRIENDLY

ECO-FRIENDLY PRODUCT

Duralex products are made from soda-lime glass. 100% recyclable, all components are purchased close to our factories to reduce our carbon footprint in transportation. We have a strong commitment to minimize energy consumption by installing state-of-the-art furnaces.

TEMPERED GLASS

The tempering technology (rapid surface cooling), acting on the glass molecular structure, makes the Duralex products particularly:
- Resistant to mechanical shocks
- Resistant to thermal shock

STACKABLE DESIGN

Duralex stackable products, are designed and manufactured to guarantee the best vertical stackability without getting stuck. Duralex products are easy to store and to handle for a daily practical use.

SELECTING GLASS RACKS

Protecting your investment in glassware is easy when you choose the right storage racks for dishwashing, storage, and transport. Follow this easy step guide and use commercial glass racks and prolong the life of your glassware.

1. Consider the **size of your dishwasher racks**.
2. **Measure the maximum diameter of your glass**. Glass racks are designed into compartments to hold glasses in place. Know the diameter of your glass, and you can calculate how many glasses can fit across the compartments in each rack.
3. **Measure the maximum glass height** to the top edge of the rim to calculate the maximum height your glass rack should be. If your glass fits between rack heights, choose the higher one to accommodate.

BREW EST 2015™

BASED ON RECENT STUDIES, THE **COLOUR AND SHAPE** OF A CUP **CAN ALTER THE PERCEPTION OF COFFEE TASTE**. FUNCTIONAL AND STYLISH, BREW'S BEVERAGE RANGE IS IDEAL FOR **COMMERCIAL** AND **RESIDENTIAL** USE.

COMMERCIAL STONEWARE

Durable and practical, our Commercial Stoneware is high fired for maximum strength and endurance. Able to withstand the rigours of a professional kitchen, our robust stoneware is microwave and dishwasher safe.

ITALIAN SILHOUETTE

Infused into café culture everywhere, the stunning silhouettes bring character and charm. Carefully created, the impressive shapes are a perfect blend of commercial needs and contemporary style.

DESIGNED TO MIX AND MATCH

Stylish and functional, this collection had been skillfully created to coordinate beautifully with other pieces in the collections. Add a layered effect by mixing and matching colours and textures together, creating a unique appearance.

FLOW IS A VERSATILE, **MODULAR DISPLAY SYSTEM CRAFTED AROUND A GASTRONORM SIZING**, ALLOWING YOU TO **CREATE A CUSTOM DISPLAY**. AVAILABLE IN FOUR COLOURS: WHITE WASHED, BLACK LACQUERED, NATURAL OAK AND WALNUT.

HOW TO CREATE YOUR BUFFET DISPLAY WITH FLOW

To build your display, select a gastronorm size, a frame (flat or angled) and a top (deep or shallow trays or flat plinths).

The Flow Range's interchangeable and stackable components offer versatility to tailor your display and allow for efficient replenishment between front and back-of-house, with new innovations regularly being added. Each stackable tray is ideal as part of a large cuisine presentation or can be selected for hygienic, discrete single-serve, offering unprecedented sustainability across dining options.

TILT IS A **UNIQUE, FLEXIBLE DISPLAY SYSTEM** THAT OFFERS ENDLESS POSSIBILITIES FOR CREATIVE GASTRONOMIC EXPRESSION. THE TILT RANGE **ENABLES THE CREATIVE DISPLAY WITH ELEGANCE AND POISE**.

HOW TO CREATE YOUR BUFFET DISPLAY WITH TILT

Tilt's interchangeable serving tops include bowls, extended plinths and juice dispensers, offering an elegant display service ready for quick changes between meals. Each component is also ideal for single-serve, with sleek salad bowls and luxurious marble plinths that are perfect for desserts.

To build a custom display, select a frame height, then pick from bowls, plinths and juice dispensers made from luxurious marble, black glass, stainless steel or solid wood.

ZANZI

WITHIN THIS NEW BRAND, WE HAVE PROVIDED THE TOOLS TO **ELEVATE YOUR PRESENTATION** AND **EXPERIENCE TO PERFECTION**. ZANZI WILL ACCOMPANY ANY BAR WITH STYLE **FROM TOP-SHELF PROFESSIONALS TO BARTENDERS AND THE AT-HOME COCKTAIL CONNOISSEUR**.

18/10

18/10 STAINLESS STEEL

Designed for both form and function, 18/10 Stainless Steel barware is made from quality materials. Durable, practical, and dishwasher safe, our stainless steel products are made to last.

PVD COATED

PVD coating is a stunning finish initially developed for the jewellery industry. Extremely durable and hard-wearing, PVD coatings offer long-lasting lustre and scratch resistance. The decorative treatment is food safe and handwash only to extend the long-term brilliance.

HAND WASH RECOMMENDED

Zanzi barware is made to the strict quality standards of Tomkin, Australia's leading hospitality supplier. We recommend, where possible, to wash with warm soapy water and leave to dry.

BARWARE CARE & MAINTENANCE

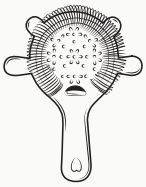

BAR MAINTENANCE IS ESSENTIAL FOR ORGANISATION, CLEANLINESS AND EFFICIENCY. ENSURE ALL ITEMS ARE REPLENISHED AND PLACED BACK WHERE IT BELONGS FOR **EASE OF SERVICE** FOR THE NEXT PERSON TO USE. THIS WILL **LOOK NEAT** AND MAKE IT **EASIER TO FIND THINGS WHEN NEEDED**.

LABELLING AND DATING ALCOHOL AND FOOD LETS YOU KNOW WHEN IT WAS OPENED AND IS STILL GOOD TO USE. HAVING MULTIPLE ITEMS OF THE SAME THING OPENED SIMULTANEOUSLY CAUSES CONFUSION AND WASTAGE.

KEEPING YOUR BARWARE TOOLS IN "AS NEW CONDITION" STARTS WITH PROPER CARE AND MAINTENANCE. **FOLLOW THE CLEANING GUIDELINES** OF EACH PRODUCT. **WHEN IN DOUBT, HAND WASH ITEMS IN HOT SOAPY WATER AND LEAVE THEM TO DRY**.

STAINLESS STEEL FEATURES HEAVILY IN MANY BARS, RESTAURANTS, AND COMMERCIAL ENVIRONMENTS. IT IS ESSENTIAL TO KNOW HOW TO CARE FOR IT PROPERLY. **USE SOFT CLOTHS** LIKE MICROFIBRE AND PLASTIC SCOURING PADS TO **AVOID SCRATCHING THE SURFACE**. **CLEAN AND POLISH REGULARLY** - CLEANING AFTER EACH USE TO ELIMINATE BUILD-UP AND POLISHING KEEPS THE CHROMIUM OXIDE INTACT, SO RUST DOES NOT FORM. **AVOID HARSH CHEMICALS**; FOR BEST RESULTS, USE HOT SOAPY WATER.

FOLLOWING AN OPENING AND CLOSING CHECKLIST KEEPS THINGS CLEAN AND ORDERLY. FROM CLEANING BAR MATS TO CLEANING UNDER THE LIQUOR BOTTLES, **A CHECKLIST THAT ENSURES ALL AREAS ARE CLEAN ON A DAILY, WEEKLY OR MONTHLY BASIS IS IMPORTANT FOR THE LONGEVITY OF YOUR BAR EQUIPMENT**.

PRODUCT	HOW TO CLEAN	PRODUCT	HOW TO CLEAN
 SHAKER GLASS	These can clean in the dishwasher or hand washed with warm soapy water, then leave them to dry.	 COCKTAIL SHAKER	For long givity of your shaker, wash the tin by hand with warm soapy water then leave them to dry. Don't put them in the dishwasher because it can damage them.
 JIGGER	Jiggers are used to measure alcohol, juice, and syrup. So wash them with warm soapy water then leave them to dry.	 BAR SPOON	Clean them with warm soapy water, wipe them well, and leave them to dry.
 MESH STRAINER	Mesh strainers should be cleaned in warm soapy water with a dish brush to clean the mesh, then leave them to dry properly.	 BAR STRAINER	Bar strainers should be cleaned by hand with warm soapy water and a dish brush or gentle scourer, then leave them to dry.

tk tablekraft **DESIGNED TO MAKE INDEPENDENT EATING EASIER**, OUR CLASSIC RANGE OF INDEPENDENT LIVING CUTLERY IS CRAFTED FROM **18/10 STAINLESS STEEL**. VERSATILE AND DURABLE THIS SIMPLE RANGE WILL **MAKE IT EASIER FOR PEOPLE WHO STRUGGLE WITH STANDARD CUTLERY**.

18/10 STAINLESS STEEL

Designed for both form and function, Tablekraft's 18/10 Stainless Steel Cutlery is made from the highest quality materials. Produced with 18% Chromium and 10% Nickel, this higher nickel content provides better quality of cutlery.

DISHWASHER SAFE

Dishwasher safe products are essential for any hospitality business. Our dishwasher safe items are guaranteed to stand up against everyday commercial use rigors without compromising their original lustre or finish.

RANGLE IDENTIFICATION

Our beautifully shaped and crafted cutlery ranges now make it easier to identify. Each piece is cleverly stamped with the range name, making re-ordering your current style effortless.

MINOR HANDICAPS RESULT IN A LACK OF CONFIDENCE

AS WE GET OLDER, NOTHING IS AS EASY AS IT WAS IN OUR YOUNGER YEARS. TYING SHOE LACES, BUTTONING A SHIRT AND, ABOVE ALL, **HANDLING CUTLERY, PLATES OR CUPS SUDDENLY BECOMES A FRUSTRATING EXPERIENCE IN EVERYDAY LIFE**. MINOR HANDICAPS RESULT IN A LACK OF CONFIDENCE AND CAUSE SOME PEOPLE TO LOSE THEIR PLEASURE IN DINING, AND THEY SUBSEQUENTLY WITHDRAW FROM THE FRIENDLY SETTING OF THE DINING TABLE.

THIS IS WHY THE GERMAN BRAND **SCHÖNWALD HAS DEVELOPED A UNIQUE RANGE: DONNA SENIOR**. DESIGNED WITH FUNCTIONAL AIDS, DONNA SENIOR MAKES IT EASIER FOR PEOPLE WITH REDUCED MOBILITY AND MOTOR SKILLS TO EAT AND DRINK WHILE AT THE SAME TIME ELEGANTLY DISGUISING THEIR LIMITATIONS.

THE RANGE IS AVAILABLE IN PLAIN WHITE; HOWEVER, SCHÖNWALD ALSO OFFERS TO DECORATE ALL ITEMS WITH SOLID AND CONTRAST-RICH COLOURS, WHICH **PROVIDE MORE ORIENTATION TO RESIDENTS WITH VISUAL LIMITATIONS AND TO PEOPLE WHO HAVE DEMENTIA**. ALL COLOURS ARE EVERLASTING HIGH QUALITY IN GLAZE DECORATIONS THAT ARE MICROWAVE AND DISHWASHER SAFE.

SCHÖNWALD Germany

CREATED WITH EASE OF USE IN MIND, SCHONWALD DONNA SENIOR RANGE DELIVERS AN ENJOYABLE DINING EXPERIENCE FOR ALL. **HIGHLY DURABLE** AND **RESISTANT TO SCRATCHING**, THIS CLEVER RANGE IS BOTH **MICROWAVE AND DISHWASHER SAFE**.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

RELIEF DESIGN

Delicate and simple, Relief Designs delivers a minimal texture of smooth and embossed pieces. Clean lines in gorgeous pastel shades and brilliant white make a perfect background for beautifully plated dishes.

AGED CARE

Light-weight, simple and reliable, Healthcare ranges make independent living easier. Suitable for use in nursing homes, healthcare facilities and hospitals, this collection withstands the rigours of everyday healthcare use.

ROYAL PORCELAIN MAXADURA DELIVERS **TRADITIONAL SHAPES** AND **CLASSIC STYLE**. THIS **HIGHLY DURABLE** RANGE OFFERS A SHINY AND REFINED TEXTURE THAT PROVIDES **EXCELLENT SCRATCH RESISTANCY**.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

DUST PRESS COLLECTION

Extraordinarily hard and dense, this Dust Press collection is created using a dry powder compacted to produce a sturdy and solid substance. Using age-old processes, Dust-Press porcelain is much harder than ordinary porcelain.

CLASSIC COLOUR

Our Classic Colour dinnerware is the perfect combination of elegance and grace, enriched with a subtle silky off-white hue. Its slight off-white tone sits comfortably against other Classic Colour collections.
